

Form 7 of 8: Operations and OT

Who fills this in: plant manager, facilities lead, or field operations. **Skip this form entirely if you have no plant, warehouse, lab, or field equipment. Time:** about 15 minutes. **"I do not know" is a real answer.**

Company: _____ Your name: _____ Date: _____

Why this form exists separately: standard IT security advice can stop a production line. We ask before we recommend anything here.

1. What physical operations do you run?

☐ Manufacturing ☐ Warehouse ☐ Lab ☐ Field crews ☐ Vehicles or drones ☐ Other: _____

2. How many sites? Where?

3. What equipment is connected to a network?

☐ Production machines ☐ PLCs / SCADA ☐ Building controls (HVAC, doors, cameras) ☐ Lab instruments ☐ Scales, printers, scanners ☐ Other: _____

4. Is that equipment on the same network as office computers?

☐ Separate ☐ Same ☐ Partly ☐ Not sure

5. Can vendors connect remotely to any of it? Who, and how?

6. Is any of it running software that is no longer supported?

☐ Yes ☐ No ☐ Almost certainly, but not documented

7. What happens to the business if this equipment stops for a day?

8. Who is allowed to touch or reconfigure it?

9. Are there shared logins on any of it? (Very common. No judgement.)

☐ Yes ☐ No ☐ Almost certainly

10. Is there a manual fallback if the systems are unavailable?

☐ Yes, practiced ☐ Yes, in theory ☐ No

11. Who controls physical access to these areas? Badges, keys, or neither?

12. Has equipment ever been stopped by an IT change, a patch, or a network problem?

What must we never do without talking to you first? (Please be blunt.)
